Sub: UTTIPEC Advisory.

Sir / Madam,

UTTIPEC has observed that the ongoing improvements such as new roundabouts, crossings, etc. are being built in the various parts of Delhi are not in accordance with approved UTTIPEC Street Design Guidelines and MPD provisions. The following are the shortcomings observed:

- i). Tactile paving and universal access ramps are missing.
- ii). Inadequate road crossings.
- iii). Footpath heights are often incorrect.
- iv). Street furniture is often encroaching upon walking space.
- v). Multi Utility Zone

Master plan for Delhi-2021 and approved UTTIPEC Street Design Guidelines already stands issued to all road owning agencies in Delhi (The same may also be referred on DDA website i.e. www.dda.org.in). It is therefore requested that provisions of MPD-2021 and Street Design Guidelines need to be adhered in all road related proposals undertaken by the local agencies.
