## IEI Centenary Celebration

The Institution of Engineers (India), with a membership of over 9,00,000 is the largest body of engineers in the world. IEI will complete 100 years in 2020 and centenary celebration programmes are being organised. Safety Convention 2018 is an event to showcase IEI Powers in its preparation for centenary Celebration.

### About The Institution of Engineers (India)

#### *98 Years of Relentless Journey towards Engineering Advancement for Nation-building.*

The Institution of Engineers (India) is the largest multidisciplinary professional body that encompasses 15 engineering disciplines and gives engineers a global platform to share professional knowledge. IEI has membership strength of more than 0.9 million. Established in 1920, with its headquarters at 8, Gokhale Road, Kolkata-700020, IEI has served the engineering fraternity for over nine decades. In this period of time it has been inextricably linked with the history of modern-day engineering.

In 1935, IEI was incorporated by Royal Charter and remains the only professional body in India to be accorded this honour. Today, its quest for professional excellence has given it a place of pride in almost every prestigious and relevant organization across the globe. IEI functions among professional engineers, academicians and research workers. It provides a vast array of technical, professional and supporting services to the Government, Industries, Academia and the Engineering fraternity, operating from more than 100 centres located across the country. The Institution has established R&D centres at various locations in the country and also provides grant-in-aid to its members to conduct research and development on engineering subjects.

#### Preamble

India is among the fastest growing economies in the world with the highest number of young work force below 35 years. As the country strives to achieve manufacturing excellence, Industrial Safety and Sustainability are emerging to be critical elements of its global competitiveness.

Need and concern for Safety is crucial. There are direct costs/effects of an accident but there are certain indirect costs involved in it also e.g. machine down time, damage to machine, idle time of nearby equipment and horror created among workers, loss of time etc. & in terms of rescue and relief, initial aid, cost compensation, legal implications and allied costs etc. Safety measures would not only eliminate/avoid above costs, but would mean performing their moral responsibility towards workmen/operators also. Most important it improves competitiveness.

Budget 2018-19 has focused on contribution of MSME Sector on future growth and export. The Safety Convention 2018 will therefore focus on Safety Issues of MSME Sector.

**Safety Convention 2018** is being organized to arrange a platform to collaborate with industries, organizations,
