Subject: Desilting of drains

The Progress of desilting of drains was reviewed last week and it was observed that some of the Executive Engineers are far behind the targets. It was asked to all Chief Engineers of Maintenance zones to take necessary remedial measures and instruct concerned Executive Engineers to work day and night for desilting of drains so that it is completed within the minimum possible time. Now, monsoon may arrive in Delhi at any time hence desilting of drains is very-2 important..

Therefore, Executive Engineers may be instructed to do the needful urgently and responsibility be fixed of concerned EE for any untoward incident in their jurisdiction.
