Subject: VIP Invitation for Indian Steel Congress 2022

Dear Mr. Khem Chand Singh,

Good day! Greetings from TraiCon.

We at TraiCon we will be hosting **Indian Steel Congress 2022** scheduled to take place on **23rd & 24th June 2022** at the **Vivanta Dwarka, New Delhi India.**

Indian Steel Congress aims to bring together leading steel manufacturers, architects, scientists & researchers to exchange and share their experiences and research results on all aspects of Steel. This forum is attending by steel and steel-related industries professionals from all-over the world such as builders, architects, manufacturers, oil and gas producers and engineers focused on promoting their products and services, establishing mutually beneficial business contacts, and developing their businesses with the latest market trends.

Please find the attached Brochure & Registration form.

We are pleased to provide **10 VIP Delegate Passes** to **Public Works Department.**

We request your kind-self to nominate some senior representatives to attend this program for entire 2 days.

Benefits:

- Access to all the networking sessions for both the days.
- Access to panel discussion, roundtables, case studies & brainstorming sessions.
- 5 star breakfast, luncheons & coffee breaks for both the days.
- Post event documents with all the presentations.

{ Please do note that there is no registration fee, this is completely free of charge }

To Know More about the Forum log on to : <https://traiconevents.com/steelcongress/>

If you may have any queries, please feel free to call/write.

Thanks & Best Regards,

Keerthi Priya G
 Delegate Acquisition Executive

UNLIMITED
NETWORKING

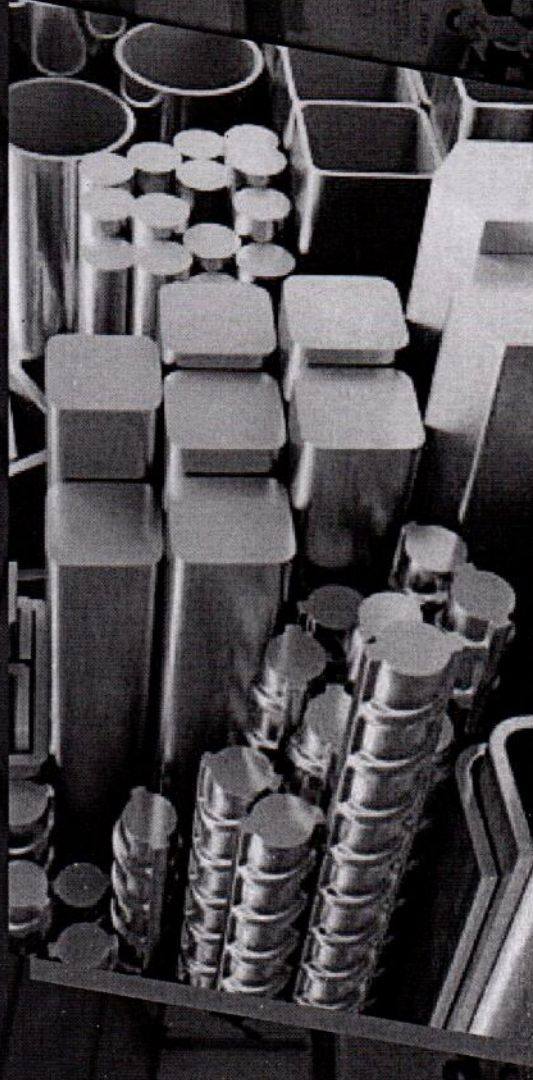

Indian Steel Congress aims to bring together leading steel manufacturers, architects, scientists & researchers to exchange and share their experiences and research results on all aspects of Steel. This forum will be attended by steel and steel-related industries professionals from all-over the world such as builders, architects, manufacturers, oil and gas producers and engineers focused on promoting their products and services, establishing mutually beneficial business contacts, and developing their businesses with the latest market trends. As a permanent material which can be recycled over and over again without losing its properties, steel is fundamental to a successful circular economy. From transport systems, infrastructure and housing to manufacturing, agriculture or energy, the industry is continuing to expand its offer of advanced high-strength steels which reduce the weight of applications and encourage circular economy practices. For society, the benefits include local jobs, durable products and the conservation of raw materials for future generations.

The conference aims to provide a platform to all the Participants, Sponsors, Delegates, Visitors and other key stakeholders from the Steel industry to present, discuss and address the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of Steel and explore new business avenues.

KEY CHALLENGES FACED BY THE STEEL INDUSTRY:

- One of the most time-consuming challenge is to meet the decision makers directly which exhausts a lot of resources.
- Solution providers would have to go through multiple layers of communication to meet the key decision maker individually. This often results in delayed negotiations, decision making and product sales.

KEY CHALLENGERS FACED BY THE SECTORS

- Sourcing quality solutions & products from reliable solution providers is one of the major challenges faced by a majority of the buyers.
- Yet another concern of a buyer is to meet the key decision makers which requires the involvement of middlemen.

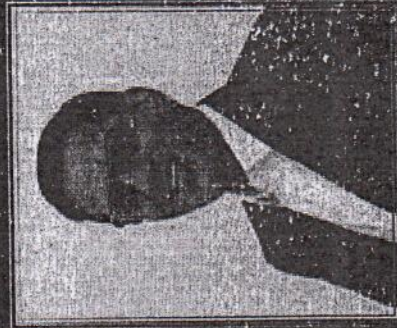

SPEAKERS

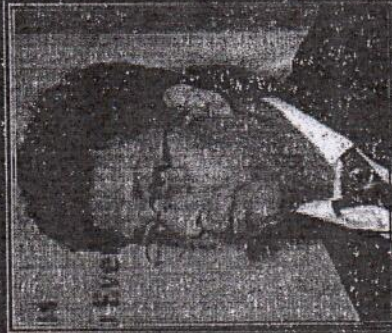

SANDEEP ROY
Sr VP and Head of Design &
Engineering
DLF Ltd.

SAMEER DIVEKAR
Executive Vice President
CP Kukreja Architects

GAURAV VARMANI
Principal Architect
studio LINEDESIGN

DR. SANJAY GAMBHIR
Regional Director,
Buildings + Places

THOUGHT LEADING CONFERENCES & PANEL DISCUSSIONS

From keynote sessions to panel discussions, get relevant insights from thought leaders across the steel sector who will engage and interact with one another to analyze future as well as current trends. Brainstorm and exchange ideas with the industry experts in business and technology.

- Power-packed keynote sessions and 15 sector-focused conferences.
- Learn from 30 of the biggest tech minds on stage.
- An opportunity to present your ideas, innovation and latest offerings to the entire audience.

DEDICATED NETWORKING

It's the leading networking platform for the **steel industry**. Opportunity to meet the structural consultants, automobile manufacturers, architects, **aerospace defence & satellite manufacturers**, **oil & gas**, mining, railway, equipment and vessels **manufacturers** which directly reduces your **sales cycle**. Sell your products & services to **quality buyers**, attendees are **specifically seeking solutions** to solve the problems they encounter on a **regular basis**.

AGENDA DAY 1

08:30 - 09:35	Registration	12:30 - 12:50	Modern High-Strength Structural Steels for Aircraft & Aerospace Engineering
09:35 - 09:40	Welcome Address by TraiCon	12:50 - 01:10	Panel Discussion - Steel: A sustainable material for a sustainable future
09:45 - 09:50	Inauguration of the Conference & Exhibition	01:10 - 02:00	Lunch Break
09:50 - 10:10	Understanding the Policies & Plans set by the Ministry of Steel for the Steel Industry	02:05 - 02:25	Enhanced use of steel in airport terminal buildings, pre-engineered structures leads to ease in work and speedy construction.
10:10 - 10:30	Indian Steel Industry: Present Scenario & Future Outlook	02:30 - 04:50	Panel Discussion - Factors to Consider when selecting the a Right Grade & Sections of Steel For Construction & Industrial Engineering
10:30 - 10:50	The Future is Steel - Strengthening the Present Shaping the Future	02:55 - 03:15	Exploring the Potential of Steel in Marine structures (Shipbuilding, repair & offshore)
10:55 - 11:15	The Importance of Structural Steel in Construction & Design	03:20 - 03:40	Development of Lightweight Steels for Automotive Applications
11:20 - 11:40	Application of stainless steel in green energy technologies (Solar, wind, hydrogen, etc)	03:45 - 04:05	Securing a robust and sustainable future for the Indian steel industry
11:45 - 12:05	Refreshment Break		
12:10 - 12:25	Steel Structures for Warehouses, Industrial & Special Structures	04:10	Day 1 Closing Remark

AGENDA DAY 2

08:30 - 09:35	Registration	12:30 - 12:50	Trends in the design and fabrication of rolling stock - Steels as a Material for Rail Tracks
09:35 - 09:40	Steel Industry - Foundation for the nation's development	12:50 - 01:40	Lunch Break
09:45 - 10:05	Sheet Metal Fabrication is a Go-To Choice for Computer Electronics Components	01:40 - 02:00	The role of innovations in changing the metals and mining industries
10:10 - 10:30	Understanding how steel plays a vital role for Defence sector	02:05 - 02:25	Panel Discussion - Can steel industry leaders reduce the industry's carbon footprint and protect the interests of steelmakers and consumers?
10:30 - 10:50	Role & Importance of Stainless Steel in Power Plant	02:30 - 02:50	Stainless Steel for Smart Cities & Sustainable Buildings
10:55 - 11:15	Simplified Design of Steel Structures	02:55 - 03:15	Indian Stainless Steel Utensils Manufacturing Outlook
11:20 - 11:40	Panel Discussion - Indian Steel Sector - Innovations & Technology	03:20 - 03:40	Role of Steel in today's high rise infrastructure & design
11:45 - 12:05	Refreshment Break	03:45	Closing Remark
12:10 - 12:25	Analysis of Steel Pipeline Corrosion in the Context of Oil and Gas Industry
