Instructional order on preparedness for Monsoon

Since, the monsoon is likely to hit Delhi by the end this month, the following instructions are reiterated as under:-

1. All the tappings constructed for trapping of sewage from storm water drains should be closed to ensure free flow of storm water during monsoon months.
2. All the trappings constructed for diversion of sewage from JJC and ISP should be closed during the monsoon months.
3. All the pumps/ motors of SPSs should be made functional in all respect. Generator sets be stationed at critical installation.
4. Adequate staff should be deployed round the clock for operating the Sewage Pumping Stations. The respective Dy.SEs/EEs/AEEs/AEs will also have frequent site visit to ensure the availability of the staff.
5. All deep excavation works should be stopped and it should be ensured that trenches should be filled in and malba/surplus earth should be removed on daily basis after completion of work. It should be ensured that trenches are properly barricaded, precaution/ diversion boards are fixed at appropriate locations and lighting arrangements during night hours are in place.
6. It shall be ensured that all the storm water drains/street drains are cleared of the malba/ surplus earth during and after execution of DJB works.
7. All vulnerable points should be identified and adequate filter water supply should be arranged to avoid water borne diseases.
8. During the monsoon, rain water along with debris is likely to enter into sewerage system. Accordingly, it will be prudent to keep the super suckers / jetting machine ready for these locations so that prompt and immediate action is taken for the removal of blockages / debris etc.
