You would be aware that road crashes have been identified as a leading cause of death globally. The Government of Delhi is committed to promote preventive strategies for road safety in Delhi to minimize injuries and fatalities on account of road accidents.

In this regard, Government of NCT of Delhi has recently signed a Participatory Agreement with Vital Strategies as a partner and representative of Bloomberg Philanthropies Initiative for Global Road Safety (BIGRS). The project will run for a six-year period from the year 2020 to 2025. Under this agreement, the GNCTD will receive technical assistance, training and personnel to strengthen the road safety efforts in Delhi. The Initiative is supported by a number of technical experts such as Vital Strategies, World Resources Institute, the Global Road Safety Partnership, Johns Hopkins Bloomberg School of Public Health, the National Association of City Transportation Officials - Global Designing Cities Initiative and the International Association of Chiefs of Police. A brief introduction of the partners and details of their Point of Contact for this project are annexed herewith, along with a copy of the Participatory Agreement referred herein above.

A project of this magnitude would require regular participation, wholehearted cooperation and quick decision making from all stakeholders. Hence, I would earnestly request you to nominate a suitably senior officer, not below the rank of Chief Engineer, to enable proper synergy amongst all partners. It is requested that the contact details of the nodal officer may kindly be provided within a week, i.e. by 21<sup>st</sup> September, 2020.

I would be grateful for an early reply.

With best wishes,

Yours sincerely,

*Manisha*
