Subject: Maintaining & cleanliness of drains and provision of water pumps

Sir,

I am directed to forward herewith the letter dated 23.5.2017 received from Office of the Joint Commissioner of Police (Traffic), Delhi Police on the above subject enclosing therewith list of vulnerable areas where repeated water logging noticed during rain.

In this regard it is submitted that in previous years, due to non de silting of drains and nonworking of water pumps, people in NCT of Delhi faced a lot of problems of water logging and heavy traffic jam during Monsoon. It is necessary to sensitize the staff to take necessary action for de-silting of storm water drains prior to Monsoon so that water may not be accumulated on road/road stretches during the coming Monsoon. Besides this we may seek help of ADMs/SDMs of Revenue Department for supervisory duties at critical points so that the monitoring could be made effectively and necessary action could be taken against the defaulting officer/official. Further duty chart of such officers may be provided to UD Department who are to be deployed at the points/locations cited by the Joint CP (Traffic) in his letter.

Subject:- De-silting & cleanliness of drains and provision of water pumps etc.

Sir,

*urgent*  
This is to inform that pre-monsoon and monsoon rains start in the month of May-June. Water logging is experienced at a number of road/road stretches in the NCT of Delhi, which results not only in disruption of the normal flow of traffic but also causes lot of inconvenience to all road users.

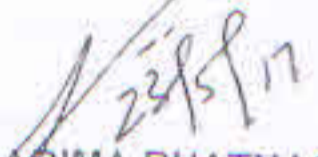

It is, therefore, requested that all the concerned field engineers/ functionaries under your administrative control may please be sensitized to initiate immediate necessary action for de-silting of storm water drains, especially the mouths of drain so that water does not accumulate on roads/road stretches. It may also be ensured that the drains are properly connected to sewage lines and there is proper discharge of water in the sewage system. Unless this exercise is carried out on priority basis and in a time bound manner, roads/road

(3) 3101

stretches may face water logging problems at various places. It is also observed that dry leaves, discarded polythene bags etc. also block the mouths of drain resulting in water logging and disruption of traffic. Installation of water pumps in advance at vulnerable locations and availability of operating staff may also be organized and kept in readiness.

It is, therefore, requested that necessary instructions may be issued to the field engineers and staff to check and clean the drainage lines/storm water drains/sewage system before the onset of pre-monsoon and monsoon. Rain water pumps installed at various location prone to water logging may please be got repaired if required and where ever, not available may please be installed. A consolidated list of such locations/stretches of roads in Delhi/New Delhi area, which were affected due to water logging during the past few years are also enclosed herewith for ready reference. Copies of letters sent by Delhi Traffic Police to civic agencies during the year 2016 regarding water logging are also enclosed herewith.

Yours faithfully,

  
(GARIMA BHATNAGAR)
